How to change your privacy settings on Instagram

Step 1: Log into your Instagram account

First, log into your Instagram account using your username and password.

Step 2: Access the Settings menu

Once you're logged in, tap on your profile picture in the bottom right corner of your screen. This will take you to your profile page. From there, tap on the three horizontal lines in the top right corner of your screen to access the menu. Then, tap on "Settings" at the bottom of the menu.

Step 3: Review and adjust your privacy settings

On the Settings page, you'll see a list of options to review and adjust your privacy settings. Here are some of the key options you may want to consider:

- **Account privacy.** This setting controls who can see your posts and stories. You can choose to make your posts and stories public, visible only to your followers, or visible to a custom list of people.
- **Story privacy.** This setting controls who can see your stories. You can choose to make your stories visible only to your followers or visible to a custom list of people.
- **Comment controls.** This setting allows you to control who can comment on your posts and who can mention you in their comments.
- **Photo tagging.** This setting allows you to control who can tag you in photos and who can add your posts to their Instagram story.
- **Profile information.** This setting allows you to control who can see your bio, website, and other information on your profile.

- Activity status. This setting allows you to control who can see when you're active on Instagram and when you were last active.

Step 4: Save your changes

Once you've adjusted your privacy settings, be sure to tap the "Save" button at the top right corner of your screen.
