

Prompt Tips

That Will Improve AI Outputs

www.safeonsocial.com

01

Include detailed context

Be specific by telling the AI Text Generator any details that will help it understand what you need to have assistance with. Specify student levels, and desired challenges. Clear details lead to more tailored AI responses.

02

Assign the AI a role

Example: You are an expert educator specialising in curriculum design: Your audience is a teacher seeking innovative teaching strategies: You are teaching music: You are Mick Jagger:

Tailor the AI's guidance to your specific needs.

03

Identify your target audience

Help the AI tailor its response in complexity and tone. Whether it's young students or professionals, this ensures the AI's answers are relevant and appropriate for the intended group. **Example:** "Grade 3 Student" "Wellbeing Teacher" "Parent of a 12 yr old student"

04

Specify the format

Be precise about what you need. Ask for the format you want. **Example:** Song, Math formula, List, Poem, First chapter of a novel.

05

Use verbs to guide AI clearly

Examples:

- Evaluate: For assessments or critiques.
- Generate: To create new content.
- Edit: For text modifications.
- Revise: To make substantial changes.
